## page-turner

It's okay to dream. But dream smart, says New York City-based architect and author Dennis Wedlick. In his latest book, *Good House Hunting: 20 Steps to Your Dream Home* (Harper Design), Wedlick asserts that you can attain your ideal abode, whatever your taste or budget. First, he helps you write a wish list to bring the habitat you hope for into sharper focus. Then, learn how fantasy plays into reality by following his 20 steps for finding what you want—from setting a price to pinning down a location. \$25. [harpercollins.com](http://harpercollins.com).

## scene stealers

On the WB's drama *Summerland*, fashion designer Ava Gregory (Lori Loughlin) and her main squeeze, Johnny Durant (Shawn Christian), epitomize Southern California cool. So set decorator Shirley Starks decks out the patio with this chic five-position lounge chair, \$59. "Ava leads a glamorous West Coast life," says Starks. "I kept that in mind when choosing this canvas chaise, with its bold colors and rich nyatoah-wood frame." In striped, shown, and seven solid hues. Matching bikini top not included.
